

July 1, 2013

Dear Moog Partner

This Memo announces the commencement of the obsolescence program for the Jet Pipe Servo Valves. The last date Moog will accept an order for new Jet Pipe Valves is **31st December 2013**.

Pricing for Jet Pipe Valves will be available via the ePricebook for the next 30 days. After **1st August, 2013** pricing will be available on a request basis only. Moog will endeavor to provide quotations within a 1 to 2 week period. Please note pricing and lead times maybe impacted by inventory levels and supply chain constraints.

Repair of Jet Pipe Servo Valves will continue until 31 Dec 2015 or until the current inventory levels are depleted, whichever comes sooner.

All new and repairs will carry Moog's standard warranty until 31 Dec 2015 at which point all warranties will expire.

Summary of End of Life Process:

Date	Action
1 July 2013	Jet Pipe EOL Announcement to Distributors.
1 August 2013	Pricing available by request (no longer on ePricebook).
31 Dec 2013	Last day Moog to accept orders for new Jet Pipe Valves.
1 July 2015	Final date for submission of Jet Pipe Valves repairs. Moog will offer alternative valves where part availability hinders the ability to repair valves.
31 Dec 2015	End of support for all Jet Pipe products.

Moog application engineers will be available to support you in the transition of customers using Jet Pipe Valves to an alternate model series.

If there are any questions regarding this notice please contact your RSM.

Sincerely,

Robert Nicholl
